Subject: Alarm installation + servicing.

I would like to offer a reference to the team at ID Security Systems.

The installation was trouble free, due to good communication, standard of work, tidiness and overall attitude. They were punctual and respected our work place.

Since the installation we have required a Call Out, this was dealt with in a satisfactory manner resulting in an immediate repair.

Servicing is also ongoing as required.

I am very confident of locking up and leaving our site knowing that the system installed is more than adequate.

I would have every confidence in using ID Security again in the future should the need arise.

*Lighting for **today**, designs for **tomorrow***
